About Me

I am a full-stack developer with about two years of experience. My tech stack includes **JavaScript, React, Node, Express**, and **SQL**. I graduated from a **technical university** with a specialization in Automation and Computer-Integrated Sciences, where I was first introduced to programming. I have upper-intermediate knowledge of English and continue to attend English classes regularly several times a week. As for myself, I

would describe myself as sociable, versatile, curious, and with a positive outlook on life. I pay close attention to details and constantly strive to improve my results.
